Available packaging:

12.5 kg

4 kg

Product description

"Alfamix chickens is a complete premium grain mixture for adult chickens. In addition to pellets, it provides a rich variety of whole and broken seeds of high quality. The complete chicken feed is formulated with pellets, seeds, vegetables, and shrimp flakes (gammarus) in such a way that it naturally ensures healthy chickens with high resistance. Alfamix chickens is suitable for all (adult) chicken breeds.

In the wild, a chicken searches for worms and insects. To meet this need, Garvo adds shrimp flakes to this premium chicken feed.

Thanks to the natural nutrients in the feed, the eggs have a full and natural flavor, a delicious ochre-yellow yolk, and a high content of omega-3 fatty acids."

Feeding advice

- feed fresh food daily, no more than the chicks or chickens can eat.

Questions about this food?

This prevents selective eating behavior

- make sure there's always enough stomach gravel and chicken grit, unless the chicken grit is in the total feed
- give fresh water every day
