Feeding advice

- the necessary amount of fyto dog is strongly dependent on the breed, age, condition and activity of the individual dog, and its ambient temperature
- feed puppies from 3 weeks on 3 times per day. Restrict the amount to what they can eat in 15 minutes. Then remove the rest of the feed
- young dogs, (highly) pregnant and lactating bitches and dogs which have to perform need more food
- give the pups preferably no supplements
- always take care that there's enough fresh drinking water
- make sure that the dog always gets enough exercise

Composition:
