

## 2373 Fytolin Fibre TIMOTHY

Timothy grass pellets for extra fiber variety without excessive energy. Can also be used as a roughage replacement.

- **Roughage replacement:** Can serve as a complete roughage replacement for horses struggling with traditional roughage.
- **Suitable for horses with dental issues:** Ideal for horses with dental problems or digestive concerns.
- **Option for wet feeding:** These pellets can be soaked, making them easier to consume for older horses or those with reduced appetite.

Available packaging:

15 kg

### Product description

The 2373 Fytolin Fibre TIMOTHY offers supplementary Timothy grass pellets for added fiber variety without a high energy content. These pellets can also serve as a complete roughage replacement. The TIMOTHY pellets are ideal for horses in need of extra support in the digestive system or having difficulty chewing due to dental issues.

Fibre TIMOTHY is composed entirely of timothy grass, a type of grass naturally favored by horses for its taste and nutritional value. Timothy naturally has a low sugar content, making it a wise choice for horses with sensitive dietary needs.

You can provide Fibre TIMOTHY as a supplement to the existing roughage or even as a full roughage replacement. If your horse

#### Questions about this food?

has difficulty eating, such as due to dental issues, these pellets can be soaked in water to make feeding easier. This is especially beneficial for older horses, those with reduced appetite, or dental problems.

### Feeding advice

- Feed daily 75 - 1500 g of 2373 Fytolin Fibre TIMOTHY per 100 kg of your horse's body weight.
- These pellets can also be fed wet by soaking 1/3 pellets with 2/3 water.
- Ensure that the total proportion of roughage and Fytolin Fibre is at least 2 to 2.5 kg per 100 kg of your horse's body weight.
- Adjust the daily feed amount based on your horse's needs, taking into account breed, activity, condition, age, and environmental temperature.
